
TAYLOR THOMPSON at red's bistro & wine bar

77 Adelaide Street West

Do you have a favourite glassware brand or designer?

Although there are many brands that get the job done, I'm still most impressed with Riedel Stemware.

If you found yourself glassless, would you rather drink straight from the bottle or out of a Styrofoam cup?

White wine I would drink from the bottle without a thought. I've gone as far as using a mason jar for red wine, but never Styrofoam. I think, barring sediment, I'd be a bottle-swigger for red as well.
